

Asheem Chandna

PARTNER // GREYLOCK

Asheem is attracted to founders who can communicate precisely about a problem and apply rigorous thinking to create an original solution.

Asheem joined Greylock in 2003. He has been an investor and board director with over 20 technology companies, including three public companies and numerous that have been acquired in strong M&A outcomes. He has been a founding investor in multiple companies, including Palo Alto Networks (NYSE: PANW), AppDynamics (acquired by Cisco for \$3.85B), Sumo Logic (Nasdaq: SUMO) and others.

Asheem currently serves on the company boards of Abnormal, Censys, Dazz, Delphix, Obsidian, and Rubrik and a few companies in stealth.

Asheem's career is marked by interest and growing expertise in enterprise markets, products and company building. He has helped create and grow multiple businesses to market-leading positions – both as a venture capitalist (2003 – present), and previously at high-growth companies (1988 – 2002).

Before arriving at Greylock, Asheem held product management, marketing, and business development leadership positions at Check Point Software and CoroNet Systems (acquired by Compuware). During his Check Point tenure, the company grew from \$10M to \$500M+ in annual revenues. Asheem began his career in product and marketing roles at AT&T Bell Laboratories and SynOptics/Bay Networks.

Asheem's prior company investments and/or company boards include Aquantia (MRVL), Arista Networks (ANET), Aruba Networks (HPE), Avi Networks (VMW), CipherTrust (McAfee), Imperva (Thoma Bravo), Neeva (Snowflake), NetBoost (INTC), PortAuthority Technologies (Forcepoint), Securent (CSCO), Sourcefire (CSCO), Skyhigh Networks (McAfee), Sumo Logic, TechProcess (Ingenico), Xsigo Systems (ORCL), and Zenprise (CTXS).

He has been included in the Forbes Midas List since 2012, and the New York Times / CB Insights top venture capitalists list since inception in 2016. Born and raised in India, Asheem holds B.S. and M.S. degrees in electrical and computer engineering from Case Western Reserve University.
